### 3 Development tools

The Multicore SDK (MCSDK) version 2.2.0 was compiled and tested with these development tools:

- MCUXpresso IDE
- IAR Embedded Workbench for ARM® version 7.80.4
- MDK-ARM Microcontroller Development Kit (Keil)® version 5.21a

### 4 Release contents

This table describes the release contents. Not all MCUXpresso SDK packages contain the whole set of these components.

**Table 1. Release contents**

### 5 Multicore SDK release overview

Together, the Multicore SDK (MCSDK) and the MCUXpresso SDK (SDK) form a framework for the development of software for NXP multicore devices. The MCSDK release consists of the following elementary software components for multicore:

- Embedded Remote Procedure Call (eRPC)
- Multicore Manager (MCMGR) - included just in SDK for multicore devices
- Remote Processor Messaging - Lite (RPMMsg-Lite) - included just in SDK for multicore devices

The MCSDK is also accompanied with documentation and several multicore and multiprocessor demo applications.

### 6 Demo applications

The multicore demo applications demonstrate the usage of the MCSDK software components on supported multicore development boards. The following multicore demo applications are located together with other MCUXpresso SDK examples in the `<MCUXpressoSDK_install_dir>/boards/<board_name>/multicore_examples...` subdirectories.

- erpc\_matrix\_multiply
- erpc\_matrix\_multiply\_rtos
- hello\_world
- low\_power
- rpmsg\_lite\_pingpong
- rpmsg\_lite\_pingpong\_rtos

The eRPC multicore component can be leveraged for inter-processor communication and remote procedure calls between SoCs / development boards. The following multiprocessor demo applications are located together with other MCUXpresso SDK examples in the `<MCUXpressoSDK_install_dir>/boards/<board_name>/multiprocessor_examples...` subdirectories.

- erpc\_client\_matrix\_multiply\_spi
- erpc\_server\_matrix\_multiply\_spi
- erpc\_client\_matrix\_multiply\_uart
- erpc\_server\_matrix\_multiply\_uart
- erpc\_server\_dac\_adc
- erpc\_remote\_control
